

AMERICAN BATTLE MONUMENTS COMMISSION

Subject: Request for Proposal, Fiber Dedicated Internet Access Services, RFP #74330225R0048

General. ABMC currently uses dedicated fiber internet access (DIA) services at 29 global sites. The existing service contract expires in July 2026. This project replaces the existing services with upgraded fiber connections at all locations by April 15, 2026, before local ABMC site preparations for Memorial Day 2026. Current services range from 100Mb/s to 1Gb/s. The North Africa American Cemetery in Tunisia does not have fiber connectivity due to the absence of a last-mile fiber provider.

ABMC hosts events throughout the year, including Memorial Day, Veterans Day, and D-Day commemorations. The project must be completed by April 15, 2026. This date allows for transition from the existing contract's ISP to the selected new contract's ISP well before Memorial Day 2026.

All project related documents can be found at SAM.gov under notice ID '74330225R0048' or by emailing the Contracting Officer and Contracting Specialist directly.
